

The Right Catch Basin For Every Application

Nyloplast® and NDS® provide a complete catch basin portfolio that is durable, easy to install and can be utilized from residential drainage to demanding commercial applications.

NDS Select Basins

NDS Select square catch basin works with a light duty drain grate to capture stormwater runoff and standing water from lawns, landscaped areas, under downspouts, patios, and walkways and direct it to drain pipe to prevent property damage.

Nyloplast Premium Solutions

Nyloplast Premium drain basins deliver watertight stormwater management through custom-engineered, corrosion-resistant PVC structures designed for both light-duty and heavy-duty applications ranging from residential developments to municipal infrastructures.

Catch Basin Solutions for Every Application

Effectively capture stormwater runoff to prevent erosion and standing water.

Built with corrosion resistant materials for long term performance.

Lightweight, easy to install design for reduced labor and quick installation.

The ADS Advantage

Trusted solutions
Engineered by ADS for reliable performance.

Built to last
Quality material for long-term durability.

Support to count on
From design to installation, ADS is with you.

Sustainable impact
Better drainage today for stronger communities tomorrow.

Basins features and benefits

NDS 18" (450 mm) Catch Basin

- Two-opening basin
- Green plastic grate
- Two outlet adapters plus 2 reducer rings and plug
- 6" and 8" (150 and 200 mm) pipe compatibility
- UV resistant

NDS 24" (600 mm) Catch Basin

- Two-opening basin
- Black plastic grate
- Three outlet adapters plus 2 reducer rings and plug
- 8", 10" and 12" (200, 250 & 300 mm) pipe compatibility
- UV resistant

Nyloplast Catch Basins

- Light-duty and heavy-duty catch basin
- For demanding applications
- Field adjustable options
- Size-on-Size pipe compatibility
- Step-up solution for higher demands

Choose the right basin for your project

Consider three key questions to ensure the solution delivers the performance your project requires.

What is the application?

Determine if the basin will be used for residential, commercial, municipal or heavy-duty applications.

What are the performance needs?

Select if standard stormwater capture, watertight protection, customization or higher load capacity is needed.

What are site conditions?

Burial depth, traffic/loading, number of connections and site specific needs should be considered.

Identify the Application	NDS 18" (450 mm)	NDS 24" (600 mm)	Nyloplast
Residential Drainage	X	X	X
Driveways/Walkways	X	X	X
Landscaping/Green Spaces	X	X	X
Light Duty Commercial		X	X
Heavy Duty Commercial/Industrial			X

Performance Level Choice	NDS 18" (450 mm)	NDS 24" (600 mm)	Nyloplast
Soil tight	X	X	X
Watertight			X
Size-on-size			X
Customization			X
Load Rating	Light	Light	Heavy
Burial Depth	Shallow	Shallow	Deep
