

Let ADS upgrade your Stormwater System

///ADS

Replace your failing RCP system with Advanced Drainage Systems' highly engineered products that solve modern water challenges.

Inflow & Infiltration Prevention

- Sanitary sewer joint performance
- Manufacturer installed gasket
- Inline bell & spigot
- 6 m (19.6') sticks for 60% reduction of joints

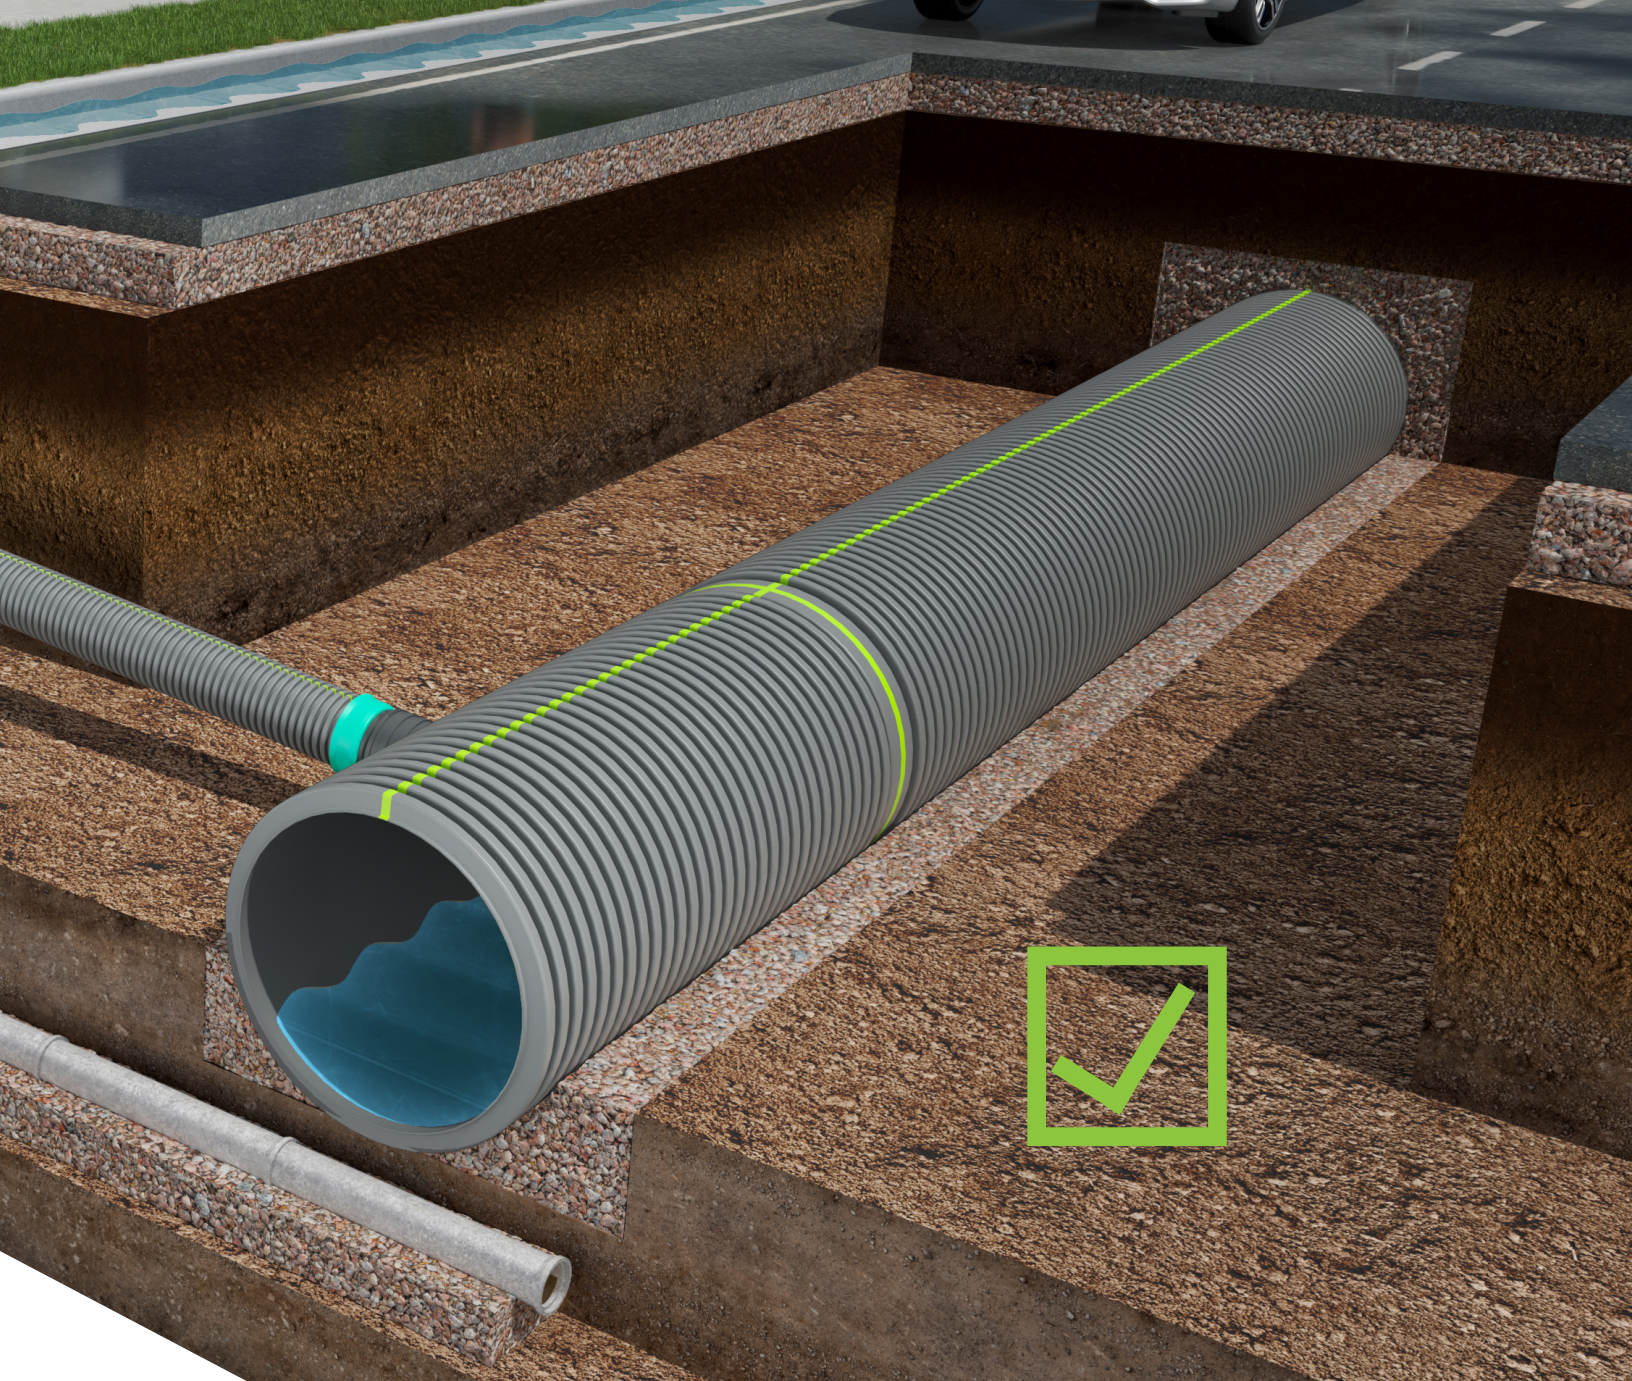

Safer Handling & Efficient Installs

- HP storm can be moved quicker
- No silica dust when cutting
- Can be installed without large machinery
- 2x the installation rate

Storage

- 300 mm - 1500 mm (12" - 60") diameters
- Nest small diameters into larger one to maximize space
- UV Inhibitor for outdoor storage
- Impact resistant

Emergency Repairs

- Dissimilar pipe connections
- Large distribution network
- Immediate availability

Resilient & Inert Material

- 100 year Design Service Life
- Tolerates movement during seismic events
- Withstand freeze thaw cycles
- pH range from 1,4 - 14
- Corrosion resistant
- Abrasion resistant

Adaptability

- Slip lining solution
- Internal & external point repair options
- Compatible with flood control devices
- Ability to be retrofitted
- Customizable configurations

Pipe Value Tool

The Advanced Drainage Systems Pipe Value Tool gives an installed local market cost comparison for SaniTite® HP, HP Storm or N-12® pipe vs RCP or CMP.
