EZsnap®

Heavy Duty EZsnap Risers

Difficult soils can challenge even the most seasoned installer, and sometimes these circumstances lead to an imperfect riser-to-lid connection. Such a connection can make lid removal and reattachment during service frustrating and time consuming. The Heavy Duty EZsnap combats this with a fiberglass-embedded support ring that increases hoop strength by up to 40%, helping the riser stay round and serviceable throughout its life. That means faster installations, easier maintenance, and greater productivity for contractors and waste haulers.

The EZsnap Riser features click and lock technology eliminating the need for assembly tools, sealant/ caulk and hardware. The Heavy Duty EZsnap Riser is available in 6" and 12" tall versions that nest together making storage and shipping more efficient.

6 & 12 Inch HD Risers Available in Black Only

- **A.** 24" x 6" Risers (SNAPRIS-HD-B2406)
- **B.** 24" x 12" Risers (SNAPRIS-HD-B2412)
