Smart-Loc™

Multi-diameter fittings

Easier & Faster to Install

Than an insert fitting

Fits All 1/2" Polyethylene Tubing

16, 17, and 18mm (0.620" - 0.710" OD)

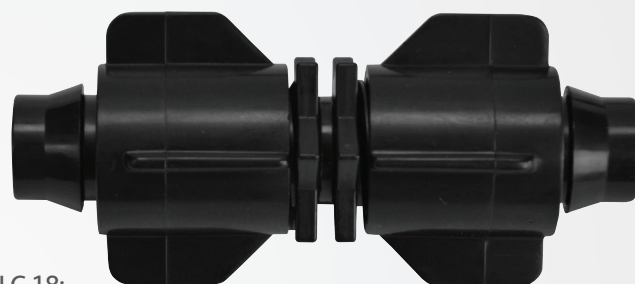

Pressure Rating: 8-80 psi

Secure Leak, Free Connections

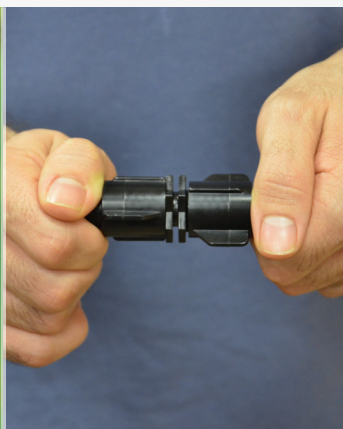

Removable & Re-usable

Great for both new install & maintenance work

Excellent alternative to compression fittings

SLC 18:
COUPLING

Works with NDS
Dura Flo Dripperline
and NDS A620, A660,
A700, A710 Supply Tubing

Dare to Compare

	NDS®	Rain Bird®	Advantages of NDS vs. Rain Bird
Universal fits all 1/2" drip tubing	✓		· NDS Smart-Loc fits 16, 17 and 18mm (0.620" – 0.710" OD) PE tubing · Rain Bird Easy fit only fits (0.630" – 0.669" OD) PE tubing
Re-useable	✓		· Tubing can be inserted and removed without damage to the NDS Smart-Loc fitting · Rain Bird Easy fit can only be used one time
All fittings are complete functioning units	✓		· NDS Smart-Loc fittings are complete functioning individual units · Rain Bird Easy fit requires a series of adapters that have to be snapped into main fittings creating permanent connections
Secure leak free connections every time	✓		· NDS Smart-Loc progressive compression design ensures leak free connections every time · Rain Bird Easy fit design can lead to improper installation and leaks
Fast and easy to install	✓		· NDS Smart-Loc design makes them quick and easy to install · Rain Bird fitting is limited in tubing size and adapters make them complicated to install
Competitively priced	✓		· Less expensive than Rain Bird Easy Fit Compression fittings

Installation

1. Expose the tapered end of the adaptor by rotating the collar all the way up the thread.
2. Using force, insert tubing onto tapered end.
3. Twist collar over the tubing to secure in place.

! Do Not Remove Collar from Fitting
