

# Work Safe

Florida is known as the lightning capital of the world, so when installing HP Storm pipe, you want to move as fast as lightning!

## OSHA's Fatal Four in Construction

\*Percentages are based on the 937 total construction worker deaths in 2015 from the OSHA website

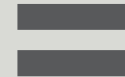

Building materials are the leading source of construction accident injuries, with 8,820 injuries recorded for 2015, and structural metal materials responsible for 2,200 of them. Being caught in or between equipment or objects resulted in 2,560 construction accident injuries in 2015.

ADS HP Storm pipe not only meets the FDOT 100 year design life criteria for all applications, but also has FAA approval for use under runway and ARRA approval for use under rail.

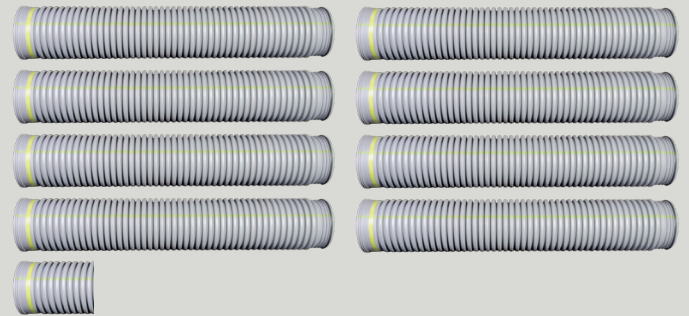

Do not need another reason to use HP Storm pipe on your next project.

**An eight-foot piece of 30" RCP pipe weights over 3,300 pounds.**

**A 20-foot piece of 30" HP Storm pipe weights less then 400 pounds.**

## Benefits of HP Storm pipe

Lightweight

Durable

Superior Strength

Easy Installation

Cost & Time Efficient

No Heavy Equipment
