

DFW International Airport Approves HP Storm

After years of successful projects at DFW International Airport, HP Storm and N-12 are now approved for full use per Section 5.0.4 of the updated 2023 Design Criteria Manual. In addition, visual inspection and performance are required for all storm drainage pipes at the airport.

HP Storm Pipe features and benefits:

High Pipe Stiffness

Water-tight Joint

Service Life

Lowest Installed Cost

12" to 60" Sizes

13' and 20' Lengths

Light Weight: $\frac{1}{20}$ the weight of Class III RCP

Reduced Truckloads and storage

Open Up Competition Drive Down Cost

When multiple materials are specified, you are ensured that:

- ✓ Performance based standards are met.
- ✓ Open competition, driving down overall installed cost.

Research suggests that municipalities which bid two or more technically qualified materials save up to 50% in total installed costs versus municipalities that specify and bid only one material.
