

# Polylok™ Products

Polylok provides a wide variety of quality and innovative products that are a great addition to the Advanced Drainage Systems brand of high-quality drainage and on-site wastewater solutions. Polylok inlets connect easily to the wide variety of ADS conveyance pipes, fittings and other stormwater and wastewater solutions. Polylok products include trench drains, distribution boxes, and a variety of grates, covers, connectors, and downspout adapters. Contact your local ADS drainage professionals for more information on Polylok products.
