

Inserta Tee® MultiFit

Lateral Solution

Inserta Tee Multifits are made for a specific lateral pipe type and size, but fit a size range of a specific mainline pipe.

Multifits are available for 4"-12" (100-300 mm) lateral connections. This expansion **adds 10" and 12"** (250 and 300 mm) to what was previously available in the Multifit product line.

- **Same great performance**
 - reliable, a fitting you can count on
- **Saves time**
 - fast and efficient installation
- **Saves money**
 - lower material and labor costs

Applications

- Storm sewers
- Structures
- Retention/Detention
- Irrigation/Agriculture
- Roof drain leaders
- Nyloplast® Drain Basins
- Fiberglass manholes
- Rainwater harvesting
