

24" Nyloplast® Universal Inline Drain

Engineered for custom connection **off the shelf.**

Nyloplast Universal Inline Drain comes out on top compared to traditional inlets made from concrete.

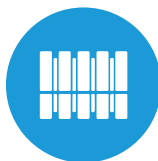

Introducing our latest innovation in drainage solutions. The 24" Universal Inline Drain features a telescopic design for seamless integration with our 12" (300 mm) model allowing smooth transitions, greater flexibility, and faster, more efficient installations.

Watertight
injection molded
joint connections

4x faster
installation

Connects easily
to HDPE pipes

No added grout to
messy adhesives

Field adjusted with
common tools

100-year service life
on HDPE

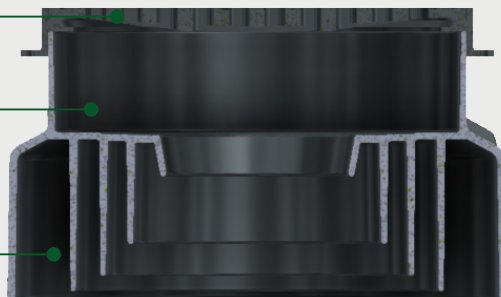

24" (600 mm) Universal In-Line Drain

Inlet grate flow
matches 24" (600 mm)
outlet hole

Stepped bell connects
to commonly stocked
12"-24" (300-600 mm)
plastic pipe

Off-the-shelf
connection to multiple
grate sizes (with a 12"
(300 mm) precut outlet)

- 24" (600 mm) drop-in
- 24" (600 mm) standard
- 24" (600 mm) pedestrian
- 24" (600 mm) dome

12" (300 mm) Universal Inline Drain connects
